Summary

Dedicated and aspiring developer with a growth mindset. Currently enrolled in Generation USA's 11 weeks junior Web Developer IT Boot Camp where I'm gaining knowledge on both technical and soft skills. Collaborated on various local business projects by boosting revenue, developing a layout responsive website, and applying strategic SEO techniques. Posses experience in HTML5, CSS, JavaScript, JQuery, React.js, Node JS, and other web-based technologies to create interactive web applications within budget and a timely manner.

Skills

Front-End	Back End	Source Control	Frameworks	CMS	Other
JavaScript ES6/ jQuery	Node/NPM/PHP	Git(Git Flow)	React/Redux	Wordpress	CLI
CSS3/SASS	REST API/Express	Git Hub	Bootstrap	Shopify	Bash Script
HTML5/XHTML	MySQL/MongoDB				IT
JSX	MVC/XML/JSON				LAMP
Wireframe Design					Linux

Professional Experience

DCNine Web Solutions / Full Stack Developer, Arlington, VA | February 2019 – Present

- Developed a website for the [Ethiopian shopping market](#) with the goal of projecting a better brand image and increasing annual revenue by 25%.
- Developed a dynamic front-end using a modern JavaScript library to create single-page apps using React.js([see portfolio](#)).
- Performed within a team using an agile development methodology and widely accepted collaboration practices using Git Flow.
- Safely modeled and stored data in SQL databases.
- Wrote secure applications and deployed them to a web hosting server.
- Worked with a talented team of backend developers.

Freelance / Frontend Developer Springfield, VA, | June 2017 – August 2018

- Collaborated with clients/content owners to understand their requirements, manage expectations, and develop a web solution for new websites and enhance existing websites with advanced SEO

techniques.

- I have been building websites, designing wireframes, and constructing web applications for almost 2 years.

Personal Projects

- Built [real-time chat app replica](#) using React.js, Socket.io, and Node.js which lets users join a chat session with a room id and send and receive messages.
- Followed a live youtube coding to build [an expense tracker app](#) using React.js Context API, Speechly voice API, and Node.js which lets you track your income expense for different categories.
- [Amazon-Clone](#) a Full-Stack project built with Node.js, react.js, firebase, and stripe. • Recreated responsive live website of apple.com using React.js and integrated Apple's YouTube channel with the website using API. View code on [GitHub](#).

Education

[University of Gondar](#) Bachelor's Degree Business-Commerce, 2006-2010

[Evangadi Networks](#) Certificate in Web Development Feb - May 2021

[Generation USA](#) Currently Enrolled March-May 2021
